RE: Acoustic Louvres

Following your recent enquiry we are pleased to confirm our budget quotation for Acoustic Louvres as requested.

The Steel Acoustic Louvres offered are manufactured from pre-galvanised mild steel sheet with general specification as indicated below.

Type: WL/EF/300/BS (standard construction 270mm deep Acoustic louvre)

1. Construction: Pre-galvanised mild steel sheet riveted assembly.
2. Blades: 0.9mm thick Pre-galvanised mild steel sheet
3. Flanges: 1.6mm thick Pre-galvanised mild steel sheet
4. Finish: Polyester power coated to RAL colour TBA (front face only)
5. Bird mesh to rear face
6. Free Area: 40-45% nominal (actual depend final louvre configuration)

We trust that these details are sufficient but please contact us should you require any further information.
Regards,

Julian Sendles
