Subject: Dangerous tree

Dear Tom,

Further to our telephone conversation, I am sending you the details of the tree that appears to be in danger of falling. It is in the end of our back garden, at 22 Maresfield Gardens, NW3 5SX. It is a big old tree but it appears to be rotting from inside, the large fungus is growing all around the bottom of the tree, there are hollow bits with squirrels living inside and the lower part of the trunk is damaged quite badly. I would very much appreciate if you could come to have a look at it and advise on whether it needs to be cut and if so what would be the best way to organise the work.

Gratefully your
Anna Zelkina
