I write on behalf of our client 'Blue Lizard' and enclose details of our online planning application documentation for the above site.

The application is in respect of the proposed installation of a standby generator in a weatherproof acoustic enclosure on the upper roof of the site. In order to assist this application the following are also enclosed:

- Design and Access Statement
- Photographs of Proposed Location and Surrounding Areas
- Acoustic Report of the site
- Neighbour Amenity and Conservation Areas Report to demonstrate the visual privacy and overlooking impact of the proposed installation. The document also includes:
 - Illustrative 3D Sketches (including street views to/from Jamestown Road)
