*My enquiry is*

We have a huge London Plane tree at the bottom of our garden (4 Elsworthy Terrace nw3 3dr). the crown is getting quite out of hand. The people in the house at the end of our garden (which are nearer to the tree than we are) have been complaining that it is blocking both their light and view. It actually effects at least 4 gardens and properties.

we have had it trimmed a few times in the past but it always becomes a problem again after a year or two.

There are quite a few trees around our area that have been pollarded and look great after they start to grow back. We would really like to have this done to our tree. Can you let me know if this would be acceptable. I think it would be for the benefit of both the tree and all our neighbors.

I look forward to hearing back from you.

Regards
