Inverforth House, North End Way, London, NW3

Proposed Safety Mirrors

Design & Access Statement

- No physical alterations are proposed to the gates and physical dimensions of the 2No. vehicle entrance / exits into Inverforth House from North End way.
- However 2No. safety mirrors are proposed to each entrance to provide better sight lines between exiting cars and pedestrians (and vice versa).
- These mirrors are proposed to improve the safety of these existing entrances.
- The mirrors will be installed entirely on the land of the Applicant although the guidelines of the Department of Transport in the positioning of such mirrors will be followed.
- The mirrors will be as small as practical and carefully mounted to respect the brick / stone banding of the existing piers that frame the entrances. Aside from drilling for fixings there will be no work undertaken to the brickwork and stonework associated with this Application.
- Particular of the proposed mirrors are included as part of this Application.
