To Whom It May Concern,

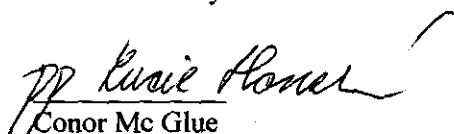

Further to the Listed Building Consent Granted on 12th October 2007 for properties at 34 and 35 John Street please find attached plans and a method statement from Samuely Consulting Structural Engineers for the structural works to the buildings to discharge condition 3(b).

With regards to the other conditions I confirm that development has begun on site within the 3 years outlined in condition 1 and that all new external and internal works and finishes and works of making good to the retained fabric, will match the existing adjacent work with regards to the methods used and to material, colour, texture and profile unless shown otherwise on the approved drawings or documentation.

Should the attached details meet your approval we would ask that you discharge conditions 1, 2 and 3(a) in writing to us at your earliest convenience.

If you have any queries or require further information please do not hesitate to contact the undersigned on 07765 971 296 or via email on conor@campingproperty.com.

Yours Sincerely

Conor Mc Glue
