Dear Sir/Madam

Installation of electronic communications apparatus by an electronic communications code operator: The Town and Country Planning (General Permitted Development) (Amendment) (England) Order 2001 ['the Regulations']

Infocus Public Networks Ltd ('the Company') is an electronic communications network provider which has been granted the electronic communications code ('the Code') under section 106 of the communications Act 2003 by the Communications Regulator (Ofcom).

The Company intends to install electronic communications apparatus, namely a public payphone at the following location(s) and applies to your Council as Local Planning Authority for prior approval of the development in accordance with paragraph A.3(3) of the Regulations and the associated Guidance.

194 Euston road NW1 2DA

In support of the application and in accordance with the requirements of paragraph A.3(4) (a) of the Regulations I enclose a plan indicating the proposed location of the public payphone and my company's cheque for the required fee of £335.

Payee In focus Media £335

(E)

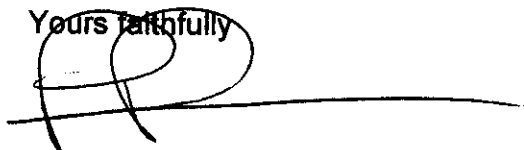

Also enclosed is a memorandum which the Company submits in order to assist Local Planning Authorities in dealing with these applications. It is not a document which is prescribed in the Regulations and is not intended to form part of the application.

These kiosks are of a modern design as shown in the enclosed drawing and will be installed in black to harmonise with the existing street furniture. Unlike the older type of payphone, they are suitable for use by persons with a disability and can be accessed by wheelchair users.

Will you please confirm that the proposed installation of a public payphone as described in the documents attached hereto and at the location(s) described therein is Permitted Development under the Regulations and that planning permission for the development is not required.

We look forward to hearing from you.

Yours faithfully

A handwritten signature in black ink, consisting of a large, stylized 'P' followed by a horizontal line extending to the right.
