

EXISTING SECTION 0727-0201

The areas on the drawing have been measured directly from a CAD drawing and have no tolerances added or subtracted

The areas have been calculated in accordance with the RICS/BSA Code of Measuring Practice, 4th Edition, 1999 using the stated options N/A, G/A, GEA. They are approximate and relate to the likely areas of the building at the current state of the design. Any decisions to be made on the basis of these predictions, whether as to project viability, pre-letting, lease agreements and the like, should make allowance for the following

Design development  
Accurate site survey, site levels and dimensions need to be fully evaluated  
Allowance for construction methods and building tolerances  
Local authority constraints
