Dear Sirs

One Southampton Row, [125 High Holborn 2005/1082/P] Terrace Guarding

The construction works associated with the redevelopment of this site are now well advanced and we are in the process of finalising details and addressing package coordination.

We are presently considering the position of glazed guarding to the terrace at level 5 onto the Southampton Row façade. The consented scheme includes a continuous clear glazed guarding with stainless steel supports to the terrace edge – this being positioned above the stone framework of the new façade and set-back from the outer face of the stone by c.750mm. In developing the details with the specialist sub-contractors we have reviewed the setting-out and would like to adjust the guarding position to set it centrally on the perimeter coping. This would mean the 750mm dimension would reduce to c630mm.

The enclosed drawings [as enclosed drawing issue sheet] indicate the arrangement as consented and the minor change for which we seek your agreement.

If the situation requires further explanation we would be pleased to discuss with you or submit further information.

Your early response to this enquiry would be greatly appreciated as these works are programmed to progress very soon.

Yours sincerely

Barry Kendall
