

EXISTING GREAT QUEEN STREET ELEVATION 01

No 32

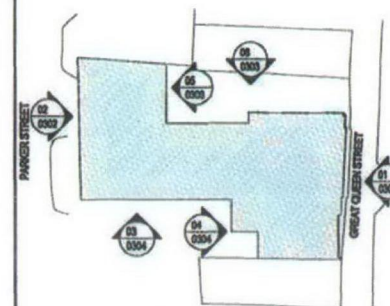

No 31

The areas on this drawing have been measured directly from a CAD drawing and have no tolerances added or subtracted.

The areas have been calculated in accordance with the RICS NISVA Code of Measuring Practice, 1st Edition, 1997 using the stated options N/A, G/A, GEA. They are approximate and relate to the built areas of the building at the current state of the design. Any decisions to be made on the basis of these measurements, whether as to project viability, pre-empting lease agreements and repairs, should take account of the following:

Design development
- Accurate site survey, site levels and dimensions need to be fully evaluated
- Allowances for construction methods and building tolerances
- Local authority constraints
