Dear Tania,

the contractor has confirmed the details, so please find attached, as requested a 1:20 scale drawing illustrating the glazing to the roof and window in the side elevation of the dormer. Also, please find attached a detailed drawing at 1:5 scale, showing a section through the dormer roof glazing panels.

Both drawings print to scale if sent to print at 100% onto A3 paper.

I hope this allows you to progress with our application. Should you have any further queries, please do not hesitate to contact me.

Regards, Christina

Dear Ms Brandenburg,

Thank you for your application for the conversion of two flats into one, replacement of existing dormer with a glazed dormer of the same dimensions and creation of a roof terrace at second floor level above the first floor bay (both on the Greencroft Gardens elevation) including the replacement of the existing window with a door to create access at the above mentioned site.

Following my site visit today I can confirm that the proposal is currently under consultation. In the meantime and in order to assist my assessment please could you provide 1:20 sections annotated with materials of the proposed glazing to the replacement dormer window. I trust this is of assistance. Please do not hesitate to contact me if you require further assistance.

Yours sincerely,
Tania Skelli-Yaoz
