# **Site Description**

The application site is located on the northern side of Jeffrey's Street. The building on the site is a 3-storey with basement terraced house and is part of the terrace nos. 11-33 Jeffreys Street (odd) which are all listed grade II. The houses in this terrace date from the early 19<sup>th</sup> century. No. 19 is in yellow stock brick with stucco ground floors and first floor band.

The site is located in Jeffreys Street Conservation Area.

## **Relevant History**

**May 2007** Planning permission and listed building consent granted for replacement of existing pvc-u windows and doors at ground and lower ground floor level at front and rear with timber sash windows to self-contained flat (Class C3), refs. 2007/0999/P and 2007/1001/L.

## **Camden Planning Guidance 2006**

### **Assessment**

**Proposal:** conversion of two flats to a single dwelling house and the replacement of windows at second floor level front and first floor level rear with traditional sash windows.

#### Assessment

The main issue for consideration in the assessment of this application is the impact on the special historic character of the grade II listed building and the character and appearance of the conservation area.

Impact on the character of the listed building and the conservation area

#### Internal works

The proposal would benefit the special interest of the building in that the subdivision of the stair compartment would be removed, the spine wall at first floor reinstated in full, and doors to rooms from the stair compartment reinstated. These alterations would be of benefit to the understanding of the original domestic layout.

At basement level it is proposed to remove much of the spine wall but nibs and a downstand will remain. Technical drawings have been provided regarding this aspect of the proposal and are considered acceptable.

#### External works

Replacement sash windows are proposed at second floor level front and first floor level rear, in place of modern sash windows. Details of traditional double hung single glazed sliding sashes have been submitted and are acceptable.

There is no objection to the removal of the metal staircase located in the front lightwell.

It is also proposed to replace the fanlight over front door to the original pattern; again, this is welcomed in restoring an original feature of the building and terrace.

The proposal is considered to be consistent with UDP policies B1, B3, B6 and B7.

#### Housing
