Hello Adrian

**Planning Reference 2006/0427P**

Further to our discussions a couple of weeks ago regarding outstanding information required for item 2 of the planning condition 23, please find attached the test results from the ground investigation which was carried out in March 2007. We believe this was issued to Camden back in April 07, however this appears to have been missed, therefore please find attached the report for your review.

In terms of the other College related planning conditions outstanding, we have received acknowledgment letters for Condition 10 which you aim to make a decision upon on the 10 February 2009 and condition 9 & 22 which you aim to make a decision upon by the 11 March 2009.

For your information, Stephen Moore from Moir Hands has issued the additional acoustic information to Dr John Anani on the 30 January 2009 for his review/approval for Condition 18 Plant Acoustics.

Should you require any further information, then please call me.

Regards

Jason Fletcher  
Associate
