

Proposals

The Proposal for 12 Briary Close is for an extension to the rear facing Adelaide Road. This extension will be 16 feet (4865mm) in length, 18 feet in width (6010 mm) and 8 feet in height (2400 mm). The extension will have two glass sliding doors to the south and have a primarily white render finish to fit in with the local vernacular architecture. The level of the new extension will run flush with the existing ground floor to ensure compliancy with disability access legislation.
