**Additional condition(s):**

2. Detailed elevations together with details of the treatment of the roof storey and samples of materials of the block of flats fronting to West Heath Road shall not be otherwise than as shall have been submitted to and approved by the Council before work on the site is commenced.
3. The facing materials to be used on all buildings shall not be otherwise than those as shall have been submitted to and approved by the Council before any work on site is commenced.
4. Notwithstanding the provisions of Article 3 of the Town and Country Planning General Development Order 1977 as amended, no development within Classes I and II of Schedule 1 of that Order shall be carried out, without the grant of planning permission having first been obtained from the Council.

All correspondence to be addressed  
to the Director of Planning and  
Communications.

**Reason(s) for the imposition of condition(s):**

See attach<sup>5</sup> sheet.

Yours faithfully,

**Director of Planning and Communications**  
**(Duly authorised by the Council to sign this document)**

1. If the applicant is aggrieved by the decision of the local planning authority to grant permission or approval subject to conditions, he may appeal to (and on a form obtainable from) the Secretary of State for the Environment, Tollgate House, Houlton Street, Bristol, BS2 9DJ, in accordance with Section 36 of the Town and Country Planning Act 1971 within six months of receipt of this notice. The Secretary of State has power to allow a longer period for the giving of a notice of appeal, but he will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not required to entertain an appeal if it appears to him that permission for the proposed development could not have been so granted otherwise than subject to the conditions imposed by the local planning authority having regard to the statutory requirements, to the provisions of the development order, and to any directions given under the order. (The statutory requirements include Sections 70 and 77 of the Act.)
2. If permission to develop land is granted subject to conditions, whether by the local planning authority or by the Secretary of State, and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, he may serve on the Council a purchase notice requiring the Council to purchase his interests in the land in accordance with the provisions of Part IX of the Town and Country Planning Act 1971.
3. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which such compensation is payable are set out in Section 169 of the Act.

This permission is given subject to the time limit conditions imposed by the Town and Country Planning Act 1971, and general statutory provisions in force in the area and nothing herein shall be regarded as dispensing with such compliance or be deemed to be a consent by the Council thereunder.

Your particular attention is drawn to the provisions of the London Building Acts 1930-39, and the by-laws in force thereunder which must be complied with to the satisfaction of the District Surveyor, whose address may be obtained from this office.

I would also remind you that the Council's permission does not modify or affect any personal or restrictive covenants, easements, etc., applying to or affecting either this land or any other land or the rights of any persons (including the London Borough of Camden) entitled to the benefit thereof or holding an interest in the property concerned in this development or in any adjoining property. In this connection applicants are advised to consult the Director of Works, Old Town Hall, Haverstock Hill, NW3 4QP, regarding any works proposed to, above or under any carriageway, footway or forecourt.

**It is also necessary to obtain Listed Building Consent before any works of demolition, extension or alteration (internal or external) are undertaken to a building included in the Statutory List of Buildings of Architectural or Historic Interest: or before any works of demolition are undertaken to a building within a designated Conservation Area.**

**A planning permission does not constitute a Listed Building Consent.**

Additional conditions:

5. Details of the plans and elevations of all accommodation of B2 and C type units including the positioning of all windows and the omission or screening of any roof terraces which could give rise to overlooking of adjoining property shall not be otherwise than as shall have been submitted to and approved by the Council before any work on site is commenced.
6. All existing trees shown on Drawing No. SP9 which are not directly affected by the proposed buildings shall be retained and protected against damage during construction. Any tree which dies or has to be removed as a result of carrying out this development shall be replaced by a species of a type and in such position as the Council may approve; such replacement shall be indicated on a drawing which shall have been submitted to the Council for consideration within a period not exceeding nine months from the completion of development. During development, the two Conifer groups retained at the north part of the site shall be fenced off, and be protected from damage, as shall the unbuilt zone at the south end of the site. Individual trees in this scheme shall be protected from damage by fencing. Work to trees shall be notified to the Council before it takes place.
7. Details of the landscaping of all unbuilt upon areas and of the fencing or other means of enclosure, and of the treatment of hard surfaces on the site shall have been submitted to and approved by the Council and the laying out and planting in accordance with the approved scheme shall take place within one year of completion of the development.

Reasons for conditions:

2. & 5. In order that the Council may give consideration to the details of the proposed development and be satisfied that overlooking is reduced to a minimum.
3. To ensure that the Council may be satisfied with the external appearance of the building.
4. To safeguard the visual amenities of the area and to prevent overdevelopment of the site by controlling proposed extensions and alterations.
6. In order to maintain the character and amenities of the area.
7. To enable the Council to ensure a reasonable standard of visual amenity in the scheme.

Informative:

Existing treed areas of the edges of the site shall be improved and maintained.
