SECTION THROUGH PROPERTY

Ground Floor: from new concrete concrete slab to whole of ground floor as follows:
 50 mm spread on 150 mm concrete over 1000 gauge polythene d.p.m. on 80 mm sand binding on min. 150 mm well consolidated hardcore.

GENERAL NOTE:
 The contractor is to brick back disturbed brickwork and block up existing openings with matching bricks & bond.
 The brick coursing is to be a guide to the number of courses required. It is an indication of the work to be blocked up, shilled back, or made good.
 The contractor should also allow for the cutting out and replacement of sections of defective brickwork other than those areas indicated and noted, which may appear in demolition or new works, or which may be found after inspection by the Architect.
 Thick black lines indicate existing openings to be bricked up.
