INTERCHANGE

RAMPING SYSTEM

PL(940180)

The Grorud Bison Bede Interchange Modular Ramp System has been designed to meet the ever increasing need to provide access for wheelchair users in domestic properties and public buildings. Having acquired a system, it can be added to, refurbished or moved under Grorud Bison Bede's unique Ramp Credit Scheme.

FLEXIBILITY

- A modular system of ramps which will fit the most difficult of sites.
- Adjustable feet overcomes the problem of uneven surfaces.

SAFETY

- Ramp base of tough expanded mesh does not bend or flex and allows drainage of water, snow and ice, giving excellent grip characteristics without trapping of heels.
- Each unit comes complete with handrails and raised kerb.

CONFIDENCE

- Large turning sections to cope with the needs of all wheelchairs.
- Quick and easy installation.

- All sites surveyed and measured by trained surveyors.
- Complies with building regulations.

COST EFFECTIVE

- Manufactured in galvanised steel, Interchange ramps are weather resistant and extremely durable.
- The system can be used over and over again and resited to a new location when required.
- Grorud Bison Bede will remove, refurbish, store and resite customers ramps under the unique Ramp Credit Scheme.

PcP Semi-Permanent Access Ramps

PcP Gratings, manufacturers of lightweight aluminium portable wheelchair ramps, offer a wide range of semi-permanent solutions to access problems.

The purpose built galvanized steel semi-permanent ramps are individually designed to suit customer and specifiers requirements.

All ramped and platformed areas are manufactured from **PcP** Type 'O' Slip Resisting Steel Flooring providing the maximum in grip and drainage.

Robust handrailing systems are provided with the inclusion of suitably sized kick flats.

PcP appreciate that re-location at a future date may be required and therefore use a modular construction to minimise adaption costs.

PcP offer a design and manufacture service, with advice on erection and civil requirements. However due to the nature of the design, installation can normally be undertaken by civil maintenance crews in a matter of hours.

For detailed advice and quotations please contact **PcP Gratings Ltd** Sales Department.
