Dear Sirs,

Re: Town and Country Planning Act 1971 - 24/34 Emerald Street, WC1

I refer to your planning application submitted in respect of the above premises. This proposal to sub-divide these light industrial premises into two separate units does not constitute development requiring planning permission. You are advised however that any proposal to change the use of these premises would be unlikely to be favourably considered by the Council.

Yours faithfully,

for Director of Planning and Communications,
