### Site Description

Terrace of 4 Grade II listed houses dating from c1662-4, altered mid C19. Stucco with rusticated ground floor. In the Bloomsbury Conservation Area.

### Relevant History

1 Nov 2007 - Planning permission and listed building consent (ref. 2007/1033/L + 2007/1022/P) **allowed on appeal** for *Works in association with the erection of new mansard roof addition for office use (Class B1)*.

### Relevant policies

UDP 2006

B7 – listed buildings

### Assessment

Details have been submitted pursuant to condition 2.

The detailed drawings of the steel frame mounting, dormers and dormer windows are considered acceptable. The windows are proposed to be double glazed, white painted timber framed sliding sashes. The double glazing is considered acceptable in this case as they are not within the original envelope of the building. The dormer is lead lined.

Sampled of the natural slate and roofing membrane have been submitted and are considered acceptable. The use of a roofing membrane on the top of the mansard was considered acceptable in principle at appeal stage. It will not be visible from the public realm. The submitted slate sample is blue-grey in colour, and is considered to have an appropriate texture.

The details submitted are acceptable in listed building terms and are recommended for approval.
