Dear Sir/Madam

**Re: Loft Conversion and Alteration, 80 Hill Way, London N6 6QD**

We write to apply for Full Planning and Conservation Area Consent for the above and enclose the following information for your attention following our application via the Planning Portal website.

- A full copy of the existing and proposed drawings
- A cheque in the sum of £135.00 made payable to Camden Borough Council to cover the planning fee

Our proposals involve the extension of the rear of the building, in line with the building line of adjacent properties and are identical to an application recently approved for number 78 Hillway. The conversion of the existing garage to a formal dining area, and the construction of two new dormer windows to form a loft conversion.

We hope to have satisfied all your requirements for this application to be considered, however, should you require any further information or clarification, please do not hesitate to contact us.

Yours faithfully,

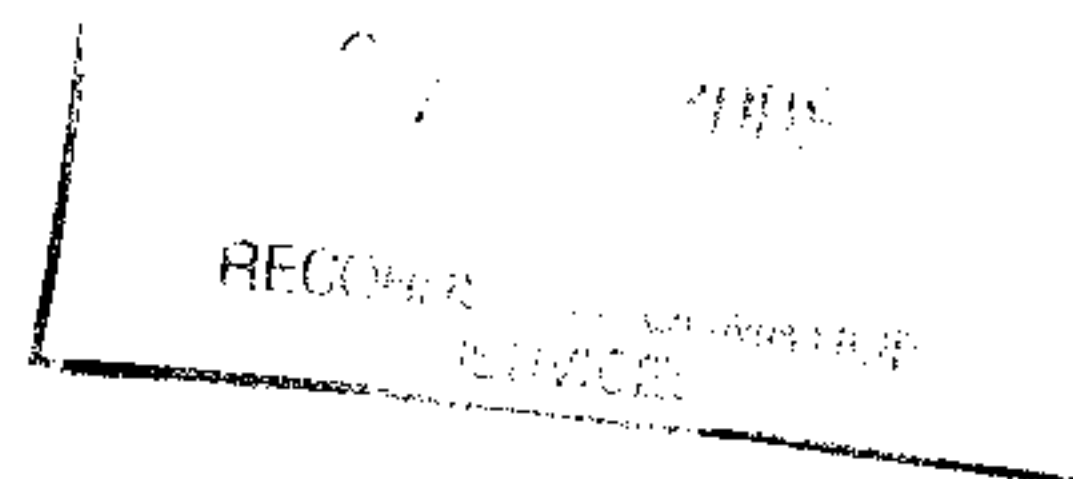

Ralph Cooley
