Dear Jenny,

**RE: NO.1 GLOUCESTER GATE, REGENTS PARK, LONDON, NW1 4HG.**

Further to your letter dated 30<sup>th</sup> November 2007, regarding our incomplete submission, please find attached further photographic information on the internal and external doors. It is our proposal to replace the front door and some of the internal doors with new doors. All of the doors that are to be replaced are neither original doors nor doors of architectural importance; they are modern replacement doors. We plan to replace these doors with four panel doors that will match with the more detailed doors on site.

Your letter requested details of sections through the doors and frames. As discussed with you today, we did not believe this was necessary as we are not replacing the door frames and the internal doors that are being replaced, are modern doors with no architectural features. In fact, the internal elements of the property are very simple and it would appear that any previous architectural details of importance may have been removed, if any existed initially.

The Royal Parks are now planning to start works on site around the 17<sup>th</sup> January 2008, subject to necessary consents being obtained. To expediate and assist you in your process, we would be very willing to meet with one of your officers on site to go through the proposed works. We have previously met Charlie, one of your officers, on site. He advised us to submit the application.

Should you require any further information please do not hesitate to contact me on the numbers or address above.

Yours faithfully

Scott C. Buchanan B.Sc (Hons) MRICS MCMi MaPS  
Senior Building Surveyor
