

**Design and Access Statement – Ref DAS 1**

**Hillway Garage, Hillway, London. N6**

**Application for the Installation of a Steel Security Fence on top of an Existing Rear Brick Built Boundary Wall to the above Property**

**Design**

- The current use of the property is a warehouse on the ground floor storey with offices on the first floor.
- The proposed works include for the fitting of a new galvanised steel security fence sited on top of the existing brick wall.
- The proposed fence has been designed to be unobtrusive as possible by providing gaps between each vertical section and left self-finished.
