29th August 2007

Dear Victoria,

Primrose Hill School Refurbishment Project

Please find attached prints of the documents required for the planning application for the temporary installation of a temporary double classroom at Primrose Hill Primary School. These include the following:

- Completed planning application forms
- Drawings showing the site location with the temporary classroom unit and the suppliers information on the proposed unit.
- Access Statement
- Drawing issue sheet

An extensive refurbishment project for the school has recently been granted all of the necessary approvals. At a recent site meeting, we confirmed that in order for the school to be able to deliver the education necessary it will need to transfer two class groups to external temporary accommodation for the duration of the refurbishment project. Unfortunately, we recently realised that the information on the proposed temporary accommodation had been accidentally omitted from the original planning documents. This separate application provides the required details covering the temporary class unit. Given the tight programme that the school and the contractors are working to, we would appreciate it if the application could be processed as soon as possible.

Please note the fee code for this application: CE219159Y2.

Please do not hesitate to contact us at the above address should you have any queries.

Kind regards,

Katherine Lowe
