Dear Hannah Walker

21 Church Row NW3
Application for Discharge of Condition

In accordance with condition number 3 attached to the Listed Building Consent of 10 May 2007.

I enclose the report of our investigations and a Method Statement from a damp remedial contractor. The letter requires some revision to fully accord with our findings and recommended repairs.

The dampness is the result of obvious defects in both old fabric and more recent attempts at damp elimination.

I would be pleased to receive your comments, and arrange any further site inspections at your convenience.

Yours sincerely

Stephen Levrant
