

NOTES

- A. All down profiles, including new fibrous plaster cavities and moldings are approximate and need to be confirmed following dimensional survey and consultation of recent mending by the contractor.
- B. All fibrous plaster moldings/curves are to match the equivalent design in Gallery 37
- C. Refer to drawings G300E-BDP-A-2716, 2717, 2718, 2719 and 2720 for reference codes to existing fibrous plaster moulding and cornice

NOTES

Technical drawing of a wall cross-section showing the construction of a parapet wall. The wall has a brick core with a cavity. The exterior face is finished with a 25mm hardened sill and a 22.5mm gypsum drywall edge board. The interior face is finished with a 22mm ply sheet. The drawing includes labels for 'FHA', '25mm hardened sill', '22.5mm gypsum drywall edge board', '22mm ply sheet. See S.E. drawings for details', 'FHB Upstand', 'FHC Corbels', and '2 layers 12.5mm gypsum wallboard'. A warning triangle is also present.

Technical drawing showing a cross-section of a wall and ceiling junction. The drawing includes various components and labels:

- Top section: A horizontal beam or support structure.
- Wall section: A vertical wall with a diagonal hatching pattern on the left side.
- Ceiling section: A horizontal ceiling structure.
- Labels and components:
 - Top left: A vertical support structure.
 - Top right: A vertical support structure.
 - Right side: A vertical support structure.
 - Bottom left: A vertical support structure.
 - Bottom center: A horizontal beam or support structure.
 - Bottom right: A horizontal beam or support structure.
 - Labels: "Top of wall", "Top of ceiling", "Top of floor", "Top of foundation", "Top of base", "Top of wall", "Top of ceiling", "Top of floor", "Top of foundation", "Top of base", "Top of wall", "Top of ceiling", "Top of floor", "Top of foundation", "Top of base".
