Condition(s) and Reason(s):

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

- 3 Details of the green roofs, including species, planting density, substrate and a section at scale 1:20 showing that adequate depth is available in terms of the construction and long-term viability of the green roof, and a programme for a scheme of maintenance, shall be submitted to and approved by the Council prior to the commencement of works. Thereafter, the green roof shall be fully provided in accordance with the approved details, and permanently retained and maintained in accordance with the approved scheme of maintenance.

- 5 The second floor dormer windows on the north east side elevation of the dwellinghouse shall be provided with obscure glazing, and fixed shut to a height of 1.8 metres above floor level, prior to the first occupation of the new accommodation, and permanently retained and maintained as such thereafter.
