Dear Tom,

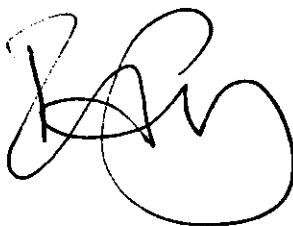

**Re: Design and Access Statement and Manufacturers Information**  
**Staff International, 28-32 Britannia Street, London, WC1X 9JF**

Further to your letter dated 1<sup>st</sup> May 2005 and our telephone conversation please find enclosed 3no. copies of a design and access statement together with manufacturers information for the roller shutter.

I hope this allows you to validate and process our application and I look forward to receiving your confirmation.

In the meantime if you have any queries or require further information please do not hesitate to contact me.

Yours sincerely,

Iain Kane

Dear Sir or Madam,

**Re: Planning Application**

**Staff International, 28-32 Britannia Street, London, WC1X 9JF**

Please find enclosed 3no. copies of a completed application form together with a cheque for the sum of £135 (one hundred and thirty-five pounds) to cover the application fee.

Also enclosed are 3no. copies of the following drawings scaled detailing the proposed installation of an additional roller shutter to the main entrance door and mild steel plate to the fire exit door at the above property.

**Drawings Numbers:** SI\_EXT\_P1 Existing Elevation, SI\_P1 Proposed Elevation, Ordnance Survey Map (site shown in red)

My client has been asked by their insurers to make these necessary changes in order to provide better security to the building. The building is within the Kings Cross Conservation area and my client is very keen to adhere to the councils' strict regulations in order to safeguard the character of the building and streetscape.

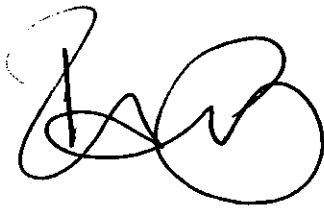

The existing roller shutter does not provide a robust deterrent to intruders as it leaves the entrance door and transom light fully exposed. We propose to install an additional identical shutter to the entrance door and provide extra security the form of a mild steel plate to the fire escape door. No structural works will be required.

A building control application will also be submitted to the council for approval.

I hope this allows you to validate and process our application and I look forward to receiving your initial comments.

In the meantime if you have any queries or require further information please do not hesitate to contact me.

Yours faithfully,

A handwritten signature in black ink, appearing to be 'Iain Kane', with a large, stylized loop at the end.
