Description of Alteration Works to 31 Laurier Road NW5:

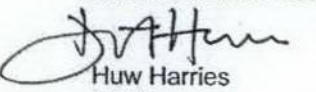

This proposal is a minor alteration to the ground floor rear elevation and adding a twin dormer to the rear elevation roof. There is no increase in floor area.

The works involve the following:

- At ground floor rear area a new improved roof/fenestration/doors.
Materials include using sheet metal roof. Walls to match existing brickwork.
Windows to be natural anodised aluminium.
- New dormer to rear elevation roof:
This dormer will match existing dormer alignment and material choice.
Reconfiguration of internal space to roof area.

I trust that the necessary documentation included herewith is sufficient to approve
this planning proposal.

I look forward to hearing from you.
