AC Planning Permission for  
Glass House Flat 12  
Gaby Aghajanian  
175 Shaftesbury av  
WC2H 8AN

Dear Sir,

Please find attached the files requested for the AC installation in my Flat 12.  
My neighbour, in Flat 14, has already asked last year for this permission which was granted by Camden Council. His AC unit is very similar in intensity to one I am installing. He asked For the environmental noise survey report which concluded as being well under the Noise Emission Limit. I checked on the internet for his file to have this guarantee.  
His file is 2005/5002/P.

As precised in the drawings, this unit will be installed on the 8<sup>th</sup> floor, and wont be seen from anywhere on Shaftesbury av or New Compton st, being much higher than any building around, in the center of the roof, well far from the streets.

Sincerely yours,

Gaby Aghajanian
