The Plough
27 Museum Street
London
WC1A 1LH

Subject Building

The building in question is an attractive public house located on Museum Street. The distinctive Victorian can be noticed easily just by the British Museum. The Plough is a traditional English pub serving a large range of drinks to enjoy while in relaxed surroundings.

The property in question is listed and in a conservation area.

Client Requirements

With the impending smoking ban arriving in August our client is proposing to create some more fixed covered areas within the paved areas, whilst also tidying up some areas and generally giving the area a bit of a 'sparkle'.

Design

Our proposal is to install 1 No. awning of 4610mm x 2000mm.

Access

Access to the pub will not be altered.
