

Treehouses

from The Children's Cottage Company

Choosing the best Treehouse for your family:

Here are 10 standard treehouse designs for you to choose from. There are three variables – the size of the Cottage, the size of the treehouse platform and budget – all of them are wonderful Treehouses which will last your children well into their late teens.

This configuration £10,970

This is an example of how we can combine a treehouse with another platform – we will happily design a bespoke treehouse and visit you to talk through all your options. We have an enormous amount of experience in making the most of any available space.

Treehouses can be fitted into any site – it doesn't matter if the ground is uneven or steeply sloping. Treehouses can even straddle garden walls and other hard landscaping.

**Classic Kit £1105**

Climbing Wall
Fireman's Pole
Monkey Bars

Monster Kit £2440

Climbing Wall
Fireman's Pole
Monkey Bars
Tyre Swing
Spiral Slide
Scramble Net

Other accessories

Lighting (very nearly essential) – Battery **£50**, Fully Wired **£250**

The most popular add-on is a pulley basket so provisions can be provided for the treehouse's inhabitants without them having to come down! **£165**

We find that the 'A' frames and swings you see in some of the pictures are almost redundant now – replaced by the tyre swing and monkey bars under the platform.

Baby and Toddler swings can be attached under the platform as well.

We can also provide a toddler's safety shield for the ladder to ensure that toddlers cannot climb the ladder to the treehouse.
