Dear Kevin

re: A505 Kentish Town Integrated Care Centre - 2004/1061/P
Sketch of Perimeter Fence around Tree T19

We write further to today's meeting to discuss the details of our recently made re-submission of details and technical clarifications with regard Conditions 4 and 6 pursuant to above planning consent.

As requested at the meeting, please find attached 4no. copies of sketch A505_SK215 which describes the detail of the proposed perimeter fence around retained tree T19. As described in the generic fence details which were submitted as part of our technical clarifications document (ref: drawing A505-SK201), the exact locations of the fence posts shall be flexible and can be altered on site to avoid the cutting of tree roots. Notwithstanding this, the proposed fence shall be located at a minimum of 150mm (approximately 6") away from the existing tree trunk in order to provide the tree with room for future growth (as illustrated on the sketch). As discussed during the meeting, the drawing also illustrates the horizontal railing bar of the existing fence, and its vertical support post which are to be locally retained to maintain the existing support to the tree.

Please do not hesitate to contact me should you wish to discuss this further.

Yours sincerely

Sonia Browse
