RECEIVED 07 FEB 2007

Dear Mr. Brew

**University College London**

Planning Application : Ref 2006 / 5703/invalid  
University College London , Foster Court  
Proposed Enlarged Roof Plant Deck & Finishes, New external windows & doors to  
Main Entrance, New Rainwater Downpipes.

Further to your letter of 19/12/06 regarding the Foster Court refurbishment project at University College London, you advised that the application was incomplete, and required additional information, which I have now obtained and attach with this letter :-

- 1) Design and Access Statement  
This has now been completed, and 5 copies attached.
- 2) Roof Plant : Ductwork at high level flat roof drwg. L(1)02 T  
This does not appear on the Courtyard Elevation as it is no higher than 1m, and is obscured by the three new condenser units in front, which are 1.6m high.
- 3) Ventilation plant : acoustic impact  
I attach 5 copies of a report prepared by the services engineers, Hoare Lea, which state that the worst case noise level at the nearest adjacent residents will be below Camden's environmental noise criterion.
- 4) Photographs of Existing Building  
5 copies of photographs attached.

I trust the above is sufficient, and you are now able to process the application as soon as possible.

Yours sincerely,

Nas Hoque
