LAWFUL DEVELOPMENT APPLICATION

SUPPORTING DOCUMENTATION

This application seeks to prove that the existing second floor rear extension to the above property has an established use.

The extension is shown highlighted on the enclosed survey drawings of the property. It is constructed partly in timber and glass.

The attached document is a Report and Structural Survey commissioned by the owner, Mr Shorkend, in August 1969. The report was produced by Cyril Leonard and Co., Surveyors, Valuers and Auctioneers.

The second floor extension is clearly referred to on page 7 of the report. This has been highlighted.
