Dear Bethany,

**Re: 74 Fairhazel Gardens – Incomplete Application [2006/4834/INVALID/IN]**

Further to our telephone conversation, and your subsequent email, I

- 1) 5 no. copies of drawings 212\_011/A; 020/-; 021/-; 030/A
- 2) 5 no. copies of new section 212\_031/-

I can also relay that I have arranged to meet a tree specialist on site on Monday to carry out an initial survey and provide the information you have requested. I will forward this information when available.

However, I trust the enclosed drawings adequately deal with the points that relate to drawings. Can you please let me know whether it may be possible to consider this application as now valid?

Your request for tree information, whilst now being dealt with, was not originally part of Doreen Strutt's letter of 08.11.06. I am obviously trying to avoid new requests for information being requested at each submission after a different validation officer reviews the available information.

I look forward to receiving your confirmation that this application can now be considered as valid.

Yours sincerely,

Leandro Rotondi
