

Treatment of boundary

The side and rear boundaries will be treated with brick wall and timber fences as existing.

The front boundary is to have a painted steel railing fence.

Planting is to be introduced to the front boundary with two medium sized (heavy standard) birch trees. Planting will also be introduced to the side boundaries with a hedge and pleached Hornbeams.

Car parking

Car parking for two cars is being provided by a garage integral to the house and on the hard-standing in front of this garage..

Refuse Storage

Refuse storage for regular and recyclable waste will be provided as part of the garage construction.
