

## Design And Access Statement

**GOOCH HOUSE, PORTPOOL LANE LONDON EC1N 7SE**

### **Ramp access**

The design of the ramped access is proposed, at the request of the Tenants, to allow for easy and safe access

The proposed scheme comprises reinforced concrete ramps with rolled steel handrails to ensure that there is enough protection on the sides to stop users from falling off.

The scheme allows access to everyone and will be of particular benefit to disabled and ambient users it will also offer improved access for persons with perambulators, wheelchair users and elderly people using scooters.
