Dear Ms Swanepoel

Re: 36 - 40 Maple Street, London W1T 6HE

Further to your letter dated 4th September 2006 (enclosed) please find enclosed the additional information as requested.

We enclose existing and proposed section drawings through the projecting sign and shop front. The method of illumination, as also shown on the drawings, is for both items of signage to be internally illuminated by means of low energy fluorescent tubes set behind a clear acrylic panel c/w orange lighting gel, over an acrylic diffuser. The Radioworks branding is to be incorporated as a small logo at the far left hand end of the elevation signage, adjacent the small projecting sign.

The proposed fascia lettering is to be omitted.

Please do not hesitate to contact me if you need any further information. We look forward to hearing from you.

Regards

Andrew Whiting
