

Design And Access Statement 30 Makepeace Avenue N6 6HL

The design of the disabled ramp was chosen to allow easy and safe access to disabled people in 30 Makepeace Avenue which is a sheltered block.

The design comprises of two reinforced concrete ramps with double metal handrails to ensure that there is enough protection on the sides to stop users from falling off.

The scheme will also allow access to everyone especially disabled people, wheelchair users and elderly people using scooters.
