Re: The Brunswick Centre, London WC1;
Planning Permission Ref. PSX0104561
Listed Building Consent Ref. LSX0104562

16th August 2006

ENVAT POST DOOM

17 AUG 2008

SUBMISSION OF DETAILS 2006/3876/P

Dear Mr Bushell,

Planning Permission, Condition No. 8 – details of intake and extract ventilation of A3 units. (Further details)

Further to our meeting on site on the 11th July I write to seek permission for <u>partial completion</u> of Ductwork to the following café /restaurant units at the Brunswick:

Unit 1-3(Carluccio's), unit 9(Square Pie), unit 11-13(The Hare and Tortoise), unit 15-17(Strada), unit 23(Nando's), unit 19-21(Giraffe).

As we discussed in the meeting the Contractor seeks permission to install the <u>ductwork only</u> to these units. Details as to the exact type and specification of extract and filter fan which will be installed by each of the above unit tenants will be separately submitted by the individual tenants or their technical agents for this work. As a guide to the standards of Air filtration which is stipulated by the landlord (Allied London) I enclose a copy of the "Tenants Guide." (see clauses 5.11 and 5.12 for requested standards of kitchen extract filtration systems.)

I understand that you will need to consult with Camden's Environmental Health department and your Conservation Officer. The drawings which describe the various routes for the ductwork and where they emerge on the elevations of the building are listed below. I look forward to your reply at your earliest convenience but please call me should you need further information.

Yours sincerely

CMSSEAK
