Dear Victoria

**LISTED BUILDING AND PLANNING APPLICATION FOR NEW LIGHTING SCHEME PROPOSAL AT
UNIVERSITY COLLEGE LONDON'S MAIN QUADRANGLE, GOWER STREET, LONDON**

Further to our preliminary consultation meeting on 28th June 2006 at UCL's Main Quadrangle, we are pleased to submit drawings of the above proposed works for Listed Building and planning application for your kind consideration. We therefore enclose 10 copies of the following documentation:

- Document Issue sheet
- UCL Main Quadrangle location plan
- Proposed Lighting scheme plan
- Key building elevations in the Quadrangle
- Lighting details at the key elements in Quadrangle
- Max Fordham's Lighting schedule
- PPG 15 Planning statement
- Completed Listed building and Planning application forms
- Requisite planning fee in the sum of £135.00

The proposals stem from the need to provide improved lighting for Health & Safety purposes within the Quadrangle. The Quadrangle forms the heart of the University campus, and is well used during the day for both circulation, relaxation and activities. In the evening it is less appealing, being poorly lit. The aim of the proposal is to make the area more attractive, to provide better architectural modelling of the listed elevations, highlighting important features and to extend the potential hours of use of the space.

Particular care has been taken in the selection of fittings for accent lighting to the listed features. A hierarchy of lighting is proposed, with the centre portico being the main focus of the space, and therefore the most strongly lit. Lighting to the other elevations will be subsidiary to this, providing a softer back-drop to the central feature. The semi circular rotundas to the Slade and South Wing will be provided with accent lighting. Lighting is also proposed to some of the principal trees within the Quadrangle, to enhance the landscaped space.
