RECEIVED

Dear Mr Cornin

PLANNING APPLICATION: - BARROW STORE, ASPERN GROVE, NW3

I understand that Tom McMahon from the Council's Street Environment Department has spoken to you regarding Veolia's aspiration to site a temporary cabin on land off Aspern Grove, NW3.

By way of background, Veolia is contracted to the Council to provide refuse collection and street cleansing services. As part of the street cleansing operation, we make use of a cabin/container which is positioned on the land which is the subject of this planning application. It was always intended that this existing container would be a temporary arrangement whilst a more suitable cabin was ordered.

A planning application was submitted to the Council in October 2004 for consent to site a new log effect type cabin on the land. This application was subsequently approved in September 2005, subject to certain conditions (application ref 2004/4699/P). One of these conditions relating to the hours of operation was entirely prejudicial to our working. Despite representations from Veolia the planning department were not minded to relax the planning condition.

I am advised via Tom McMahon that you will consider a re-application for planning consent for the new cabin, and I have enclosed the following;

- (i) 4 copies of the application form
- (ii) 5 copies of plan JW/331 showing the land in question edged red
- (iii) 5 copies of drawing JH1154-A showing the specification of the new cabin from Cleveland Site Safe
- (iv) 5 copies of plan JW/331A showing the site boundaries
- (v) 5 copies of plan JW/331B showing the projected view of the cabin from the public highway

Veolia Environmental Services plc

A member of Veolia Environmental Services plc
Registered office: Veolia House, 154A Pentonville Road, London, N1 9PE
Registered in England 2215767

- (vi) Application fee of £135.00
- (vii) Copy letter of today's date served under S.66 of the Town and Country Planning Act 1990.

Kindly note that Veolia will be intending to use the cabin as a store for street sweeping barrows. The cabin will be unattended for most of the day save for early morning booking on and mid afternoon booking off periods. In view of our contractual commitments to the Council under our Street Cleansing Contract it is important that we are able to operate out of the cabin during the early morning hours, namely 7 AM.

I would be grateful if you would process this application and should you require any further information then please contact me on the telephone number provided.

Yours sincerely
