06 June 2006

Dear Cassie:

**Re: 11 Belsize Terrace, London NW3 4AX – Alterations**

I refer to our recent telephone conversation and your letter dated 09 May.

I would like to respond to the observations on your letters in order to complete the above application, as previously discussed.

Section lines have been amended on our drawings

In order to clarify the access arrangement and the relationship between the ground floor veterinary clinic and floors above I am including all floor plans for your attention. The purpose of the other floors of the building is specified on the plans, where the residential component on the second floor is associated to the veterinary clinic (non self-contained)

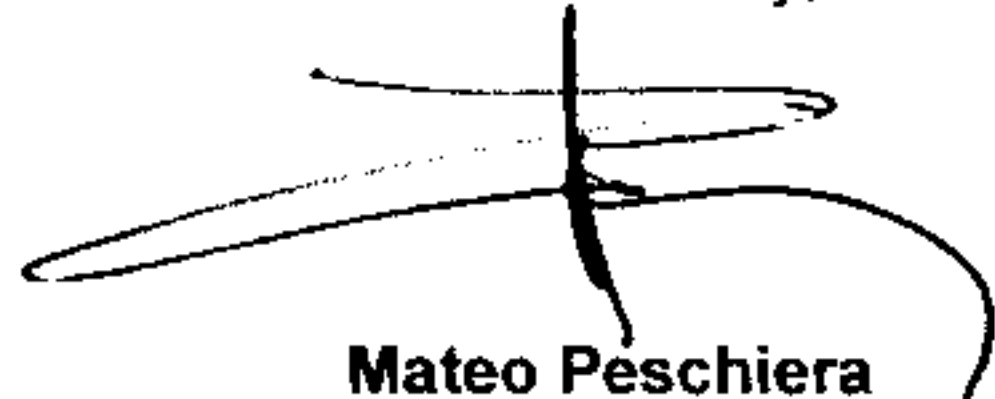

The current access to the flat above is solely gained through the existing front door to the shop. This situation would be maintained on our proposal. I confirm that there is no rear access, as requested.

Please find enclosed the following drawings and documents for your attention:

- Amended Planning Application Section 8
- PR-00: Existing basement plan
- PP-01: Existing and proposed ground floor plan –revision 02
- PR-02: Existing first floor plan
- PR-03: Existing second floor plan
- PP-05: Existing Side window details (Section B) –Proposed window to match existing side window.

Should you have any queries or further comments please do not hesitate to contact me.

Yours sincerely,

**Mateo Peschiera**

On behalf of Schneider Designers
