Full planning application for rear extension of: 39 Laurier Road, Dartmouth Park NW5 1SH London

Dear Sir / Madam

Description of the works:

External:

The front

In the front garden we will maintain a parking space and bin store. New paving and a privet hedge will be added.

The sheds

On each side of the house there will be build a shed, (rebuilt similar to existing). The one on the west side of the house will be for storage. The one on the east side will be for storage and laundry. The sheds are made of timber, clad with western red cedar and a lead roof. The height will match the height of the existing sheds. The passage to the garden is kept through the doors, which are secure solid timber doors.

The extension

At the rear, the extended part of the kitchen will be demolished and a new extension in the corner between the living room and kitchen is desired. The brickwork will match the existing. There will be a roof light that does not exceed 4 meters from the ground. The ceiling height will be the same as the existing kitchen. The extension will have glass sliding doors to the garden.

Internal:

A new toilet under the stairs will be built. And the basement dug out to create more useful store.
