A Guide to applicants who wish to obtain consent to display an Advertisement

Many forms of advertising and display are subject to control under the Town & Country Planning (Control of Advertisements) Regulations 1989 (as amended) and specific consent may need to be obtained from the Council. Most illuminated advertisements require the consent of the Council. Furthermore, if an application for consent to display an advertisement relates to a listed building, it is likely that a further application will be required for listed building consent. Forms for this consent are available from the address given at the bottom of this form. Most applications for consent to display an advertisement require a fee. The correct fee must be submitted before your application will be dealt with. Please see the enclosed fee form for details.

Notes:

1**Name and Address of Applicant/Agent**

If the form is completed by an agent all correspondence from the Council will be sent to him/her. Please give a contact name or reference.

2**Address of Application Site**

The application should be accompanied by a plan or sketch preferably to a scale of 1:1250 showing the site to which it refers and its boundary and relationship to adjoining property. The application site should be edged in red and any adjoining land owned by the applicant edged in blue. A photograph of the site indicating the location of the proposed sign should also be submitted if possible to assist in securing a speedy decision.

3**Description of Proposed Advertisement**

Please tick the appropriate box or boxes. If your proposal does not fall within any of the specified categories, please describe the advertisement in the space available. Consent to display an advertisement is normally for a five year period only; however, if you require a sign for a shorter temporary period, please specify the period for which consent is sought.

4**Details of Proposed Advertisement**

Please specify the type of illumination, dimensions and location of the proposed advertisement and its relationship to the overall building. Drawings to a scale of not less than 1:50 are required showing the existing and proposed works, with the new works for which consent is sought, clearly marked. The materials to be used and the type of illumination should be indicated on the drawing. A section should be included if the sign is to be projecting or a fascia sign is proposed. All plans and drawings submitted for approval should be identified by a distinctive reference number. Four copies of all plans should be submitted. The Council may require further information to enable it to determine the application. If the building in question is listed it will normally be necessary for you to gain listed building consent for display of the proposed advertisement. Application forms are available from the address at the bottom of the form.

5**Site Ownership and Use**

It is a condition of every consent granted by or under the Regulations that, before displaying the advertisement for which consent is given, the permission of the owner of the land or other person entitled to grant permission shall be obtained.

If you wish to enclose any additional information, please do so in the form of a covering letter.

You are reminded that the Council will not progress your application if insufficient information is submitted.

Please send your completed form (with four copies), the correct fee, and five sets of drawings to:
