Tesco Stores Ltd **Express Development Program**

Dear Sarah,
We refer to our telephone call this afternoon and confirm the following details.

Kentish Town - Store Number: 5186

- Please find attached the revised report – This includes 3 No Haier units located over the entrance canopy.
- Do you want me to send this onto John Annani at Camden Council?
- I will speak to Space Cooling on Monday to confirm the plant room attenuation details to ensure it meets our criteria. Camden council are going to be very hot on this site and I don't think there is much room for movement with the plant room design.

We trust the above is of value but should you have any further outstanding issues please do not hesitate to contact us.

Best Regards
