Dear Mr Kessler Lyne

RE: 4-26 BRITANNIA STREET, WC1X 9JD

Following the approval of the replacement windows by Velfac at first and second level and the new rear windows at third floor level (also by Velfac), we enclose details of the windows we would like to install to the front and side elevations at third floor level together with drawings showing all elevations.

We intend to use the same RAL colour for these windows as has been specified for the windows already installed. We hope that this information is sufficient to enable you to process our application to discharge conditions relating to proposed windows. However, should you have any queries, please do not hesitate to contact us.

Regards
