Re: Student Union Bar Refurbishment

Further to your meeting of the 20 May and your e-mail of the same date please find enclosed the following revised drawings

- 4 copies of drawing No 1143/2 Rev B Proposed floor plan
- 4 copies of drawing No 1143/3 Rev B Proposed ceiling plan
- 4 copies of drawing No 1143/8 Rev B Proposed Elevation and Section (option 2)

The following agreed amendments have been made to the drawings:

- Full height louvres have been inserted into the existing frames to the left hand (when viewed from the outside) run of windows
- Internally a new stud wall has been constructed in front of the window opening, extending to the full width of the recessed area.
- The suspended ceiling has been extended into the recessed area. We confirm that drawing No 1143/3B shows the full extent of the proposed suspended ceiling
- The drawing scale has been added to all the drawings.

Please let us know if you require any further information.

Yours sincerely

Nigel Burgess

CC Val Wallbank I of E Student Union
