

Cont/.....

2nd January, 2002

- iv) Cable Management. It is agreed that the cabling management in No's. 16 and 18 is a more sensitive issue, and we shall be providing more detail of our proposals. In order not to delay the approvals to Phases I and II of the project which are basically No's. 12, 14 and the Annexe, it was agreed that Phase III, i.e. No's. 16 and 18 should be omitted from the current application. We therefore enclose five copies of drawing No's. 23-00-13E, 14E, 15F, 16E, and 17H which have been shaded to indicate the area omitted from the application.

We shall be submitting a separate application relating to the Phase III works and we would suggest that a further site meeting would be useful in order to agree cable routing prior to commencement of work. The writer will therefore telephone Mr Ellenbrook to make the necessary arrangements.

We trust that we have summarised the position correctly and that Listed Building Consent in connection with Phases I and II will now be forthcoming.

Yours faithfully
for, ROY MILLARD ASSOCIATES LIMITED
