Planning

Dear Mr Davies,

6 GREENLAND PLACE, LONDON NW1 (Rear of 148-50 Camden High Street)
Application No. CEX0000286
Application No. PEX0000285

Further to our meeting earlier today in which it was stated by Jo Parker that roller shutters are not permitted in Camden's conservation areas, we have amended our elevations to omit the roller shutters. We enclose four copies of drawing no. (TP) 403 Rev. B at A1 and A3 size and ask you to substitute these for the original issue (TP) 403 sent with our planning application.

We understand that following receipt of these drawings it is your intention to prepare a report recommending the proposal for approval at the 20th July 2000 committee meeting.

At the meeting with Kimberly Paumier you were unable to provide the formula on which this assessment is based, however you agreed to fax this to us today. Could you also confirm when these contributions would be required?

Yours sincerely,

Ray Bryant
